Creative Learning Preschool and Child Care Center Families

Dear Families:

I am pleased to announce the promotion of Caissy Cross to the position of Director of Creative Learning Preschool and Child Care Center. Caissy joined us in 2004 and has enjoyed teaching the children, while completing her B.S. in Movement Science, with a concentration in Health & Fitness at Westfield State College. She has been working with children since 1999. She spent three years as an infant/toddler teacher in the employee day care at Meadowbrook of Granby nursing home. She enjoyed the uniqueness of that day care because of the opportunity to integrate the children with the older adults. She then took on a position as a special education teacher's assistant in the Granby school system. Caissy has become a certified Head Teacher and now is ready to take on the challenge and rewards of being our Director.

In this new position Caissy will be taking over the day to day operations of the center adding her passion of health, fitness and proper nutrition to the center. I look forward to working with Caissy to continue to provide the best of child care and learning for your children.

Please join me in congratulating Caissy on her promotion and in wishing her continued success at Creative Learning.

Sincerely,

Jeff Swanson
Owner
